## Who We Are

We are a worldwide organization headquartered in New York, USA, with members in all 6 populated continents; the goal is to reduce neonatal morbidity and mortality.

We seek to push the boundaries of discovery, to transform infant health care, advance education, and engage the society in our mission.

We focus on the period from conception to 1000 days after birth.

# Global Newborn Society

## Where We are

There are more than 10,000 members in the green-shaded countries in the 6 populated continents; the numbers do vary between regions and with time.

## Why this Conference, and Why Sweden?

The organization is now in its 4<sup>th</sup> year and has grown rapidly both in terms of the number of members and across time zones. Maybe it's time to start meeting in person. For details, please contact Dr. [Akhil Maheshwari](#), Founder-CEO of the organization.

Sweden, the home of the Nobel Prize, emphasizes life-long learning based on the individual rather than systems and institutions. What could be a better place?
